

# Total Waste Prevention

How to reduce costs and optimise resources for your business

The European Week for Waste Reduction is taking place in countries all over Europe and today's event is about Total Waste Prevention for Irish Business

Is your company interested in:

- Cost savings
- Reducing packaging waste
- Reducing food waste
- Reducing water consumption
- Reducing energy consumption
- Sustainable business practices

Repak, GreenBusiness.ie and the SEAI are now working together to bring you a one stop workshop where you will find information on all of the above. You can speak to representatives from each of these associations, meet companies that have already received assistance and ask questions relevant to your own business.

Visit [www.preventandsave.ie](http://www.preventandsave.ie) for up to date information.
